Fresh Solutions for Fresh Produce.™

Brands

- Ready-Set-Serve (RSS): table-ready fruits, vegetables, and juices packed to detailed specifications
- Markon First Crop (MFC): whole fruits and vegetables packed to detailed specifications

Food Safety

- Every case of RSS or MFC you purchase from a member distributor has met or surpassed Markon's unparalleled standards for food safety
- Our 5-Star Food Safety® Audit Program is based on specifications, inspections, and information at five key points: fields, facilities, transportation, distributor warehouses, and operator kitchens

Sustainability

- Markon was the first to test sustainable practices that result in specific, verifiable, and measurable data; we know the importance of quantifying water use, pesticides, and energy, and partner with like-minded grower-shippers
- We continue to set new benchmarks, meet them, make adjustments, and pass these standards along to the rest of the produce community

Trends

- Root for root vegetables! Carrots, butternut squash, yams, beets, and MFC Potatoes all taste sweeter and more intense when roasted with herbs in healthy olive oil
- Serve well-loved comfort foods but pump up the produce: mac and cheese with tomatoes, real mashed potatoes, and pizza piled with veggies
- Offer grilled chicken instead of nuggets; load the bun with lettuce, tomatoes, and mashed avocado
- Variety is key: add veggie and turkey burgers as options for non-beef eaters
