Our Choice lemons and oranges are ideal when external appearance is not important, but flavor, quality, food safety, sustainability, and consistency are.

- Lemons: Volume-filled, 40-pound cartons.
- Oranges: Ripe Valencia (May-Oct) or Navel (Nov-Apr) oranges; carton weight will vary with season.

Benefits

Our lemons and oranges are grown year-round in the most desirable farming regions of Arizona and California by the most dependable growers—and always backed by Markon's 5-Star Food Safety® Program. 5-Star Food Safety® Program

Markon's stringent food safety standards apply to every grower-shipper that packs our proprietary brands:

- Markon First Crop
- Ready-Set-Serve
- Markon Essentials

The specific requirements have evolved along with technology and science. We refer to this comprehensive food safety program as **5-Star Food Safety** because it addresses risks in five key areas — from the field to the operator's kitchen. Under **5-Star**, all brand grower-shipper fields and facilities are annually audited for:

- GAP (Good Agricultural Practices)
- GMP (Good Manufacturing Practices)
- HACCP (Hazard Analysis Critical Control Point)
- Water test results

Beyond auditing, Markon requires all grower-shippers to:

- provide full trace back to the field level on every branded item;
- display trace back information prominently on both the master carton and internal packaging (if any).

For more information, please refer to the **5-Star Food Safety** brochure.
